*The precincts in this analysis includes all precincts included in newly constituted District II. Although some precinct boundaries are being slightly modified, split, or combined to reflect the new Supervisorial District, Legislative, and Congressional District lines, this analysis is believed to be predictive of voter turnout both on and off the reservation for those precincts included in newly formed District II.

**This statistical anomaly is the result of pollworker error that occurred at the Forest Lake polling place during the September 2008 election. Forest Lake precincts #1 and #2 are combined into the same polling location, and some Forest Lake #1 voters were apparently given Forest Lake #2 ballots.
