Percent voting-age total minority residents, District 5	53.32%	53.32%	0.00%

Consultant's review comments:

This plan reduces the total population variance from about 43% to 6%, but that amount is still probably too high. Aim for no more than 5% variance.

Under this plan, the voting-age minority proportion in District 2 drops from 86% to 78%. Such a change is probably not retrogressive, because it appears to leave minority residents still able to elect candidates of their choice. The almost 13 percentage-point loss in District 3 may be more of a problem because it appears to greatly weaken the ability of that district's minorities to have an influence on election outcomes.
