Other business

I would like to place the possibility of getting another trailer for the JCFD CERT team on the discussion list for the next Citizens Corps Council meeting. The idea is to basically set up one trailer for Summer and Spring time operation and another trailer would be set up for Fall and Winter time operations with equipment in each trailer specific to the weather we would be operating in. Certain equipment would be changed from trailer to trailer depending on season. My worry is that we are going to overload our only current trailer with all our equipment and damage or ruin the trailer. Having two trailers available would greatly expand not only our capabilities but also raise our effectiveness and efficiency while responding to emergency scenes.
